

# Veronica Wambui

## Software Developer

Veronica is an ambitious software developer with a passion for building tech solutions that have a notable impact in the community. She believes technology has the power to transform the lives of ordinary citizens. As a Software Developer, she has created a student contact application that consumes data from an API and ensures the student gets timely information.

## EDUCATION

### AkiraChix-codeHive Program Diploma Information Technology.

02/2021 - Present

#### Courses

- **Frontend mobile application-** RecyclerView for holding views corresponding to the data.MVVM architecture to create mobile applications.Familiarity with OOP design principles.Consuming APIs.
- **Front end web development-** DOM manipulation to create web experiences that are personalized and responsive using JavaScript ,Html , CSS and Bootstrap.
- **Backend web development-** Data types e.g lists, tuples dictionaries, object-orientated programming in python.Develop applications using the Django Framework.
- **UX Research-**Different research methodology such as qualitative and quantitative research.

### Njoro Day Secondary School. Kenya Certificate of Secondary Education

01/2016 - 11/2019

## PERSONAL PROJECTS

#### Student registration app-

- Created an Android app that allows students to login and post using APIs.
- <https://github.com/Veronicawambui/LOGIN.git>.

#### School System -

- Created a school system using Django, Bootstrap, Html, and CSS. The system is able to register students and trainers.
- <https://github.com/Veronicawambui/Web-Applcation.git>.

#### Mobile app -

- Build a contact app that holds user's information that displays names, emails, and contact of different users.
- <https://github.com/Veronicawambui/Contact-app.git>.

#### Shape it up

- Carried out desk research and pilot study using qualitative and quantitative research methodologies for a fitness app that provides accessible and convenient workouts for women at home.
- [https://drive.google.com/drive/folders/14v56uCua9Y4E4Z26EV3WPA4Wti\\_gyQ5D](https://drive.google.com/drive/folders/14v56uCua9Y4E4Z26EV3WPA4Wti_gyQ5D).

#### Ecommerce Website-

- Created an e-commerce website using Vanilla Javascript, Html, and CSS where users can select any product and add to cart.
- <https://github.com/Veronicawambui/Project.git>.

## SKILLS

Able to use recyclerview ,cardview to create a user interface that displays data using Kotlin.

Ability to add a retrofit library to an application using Kotlin.

Ability to handle views, models, and URLs in Django Framework.

Great understanding of data types e.g. lists, tuples and python dictionaries.

Basic knowledge of Dom manipulation and developing web applications using React.

Ability to design sketch of wireframe on adobe illustrator and prototyping on Figma.

## REFEREES

Felister chesang -Software Developer at adalab.Africa.  
[chesangfelister@gmail.com](mailto:chesangfelister@gmail.com)

John Owour-Software Developer atTwiga foods.  
[owuor91@gmail.com](mailto:owuor91@gmail.com).

## INTERESTS

Traveling to different places to discover new things.

I love reading books.
